## HUGE IMPACT HUGE SAVINGS

### A 7 STAR REVOLUTION ECOREVO

Save an estimated 50% or more on your annual electricity bills with Ecorevo's 7 Star Energy Rated Homes. That's an estimated \$8,500\* or more over 5 years!

You'll also have the satisfaction of knowing you're contributing to a more sustainable environment.

Take a look at the savings modelled on the estimated annual costs of a 6 star and a 7 star home.

#### BIG HOME

250m<sup>2</sup> (26.9sq approx.)

6-star gas and electric

**\$3,065**

VS

7-star all electric +  
solar 3kWh + battery 5kWh

**\$1,189**

Bill Difference

\* Estimated costs and savings based on modelling from consultants, comparing estimated typical energy costs and usage for six and seven star rated properties in the size categories listed, in Lyndhurst, Victoria under normal climatic conditions. Homes were assumed to be built to reflect design intention, with equipment in good working order and without pool/spa. While every effort has been made to provide a reasonable and realistic estimate, energy costs savings are estimates and indicative only. Homeowners' energy bills are affected by many factors including the choice of energy provider, occupancy, usage level and usage patterns. Consumers should make their own enquiries to estimate their specific energy costs for their home based on their energy requirements.
