

Caring FOR THE Carers

At Villawood Properties, we're looking after local community care workers. We understand that police officers, emergency service workers, nurses, teachers and many more care worker professionals need to live close to work in order to nurture their local community. If you are working within a 10km radius of Oakden Rise, Villawood's latest community and work in this sector, you can save \$20,000 on land*. This is our way of caring for carers.

Contact us to find out if you're eligible.
